**Operations Distinction Consulting**

Operations Distinction *Consulting* offers a wide range of support to your business. With over 25 years experience in Operations Management, we work hand in hand with you to build systems to help you maintain profitability as you grow. Specializing in start-up and fast growth companies, we offer assistance in Manufacturing, Process Improvement, Supply Chain Management, Quality Assurance and cGMP's.

- Are labor costs up while output is down?
- Do you start a job only to shut it down for lack of parts?
- Are you missing ship dates due to quality problems or inventory inaccuracies
- Does your Quality System meet FDA Standards both here and abroad?
